Dear Editor,

May I submit the manuscript entitled "COMPARATIVE ANALYSIS BETWEEN NURSING CORE COMPETENCY STANDARDS OF AUSTRALIA AND THE PHILIPPINES" to the Belitung Nursing Journal for publication. The paper can be of interest to your journal. First, it compares the standards set forth by the two countries (namely Australia and the Philippines) in their nursing education program. Second, it explores new method called Comparative Analysis. This method is relatively new and is a green pasture.

I confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere. There are no funding on the conduct of this research this no conflict of interest are noted.

Thank you for receiving this manuscript. I look forward for your response.

Sincerely,
